

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Application of:	Markland and Ladner
Serial No.:	08/676,125
Filed:	September 25, 1996
Entitled:	Kallikrein-Inhibiting "Kunitz Domain" Proteins And Analogues Thereof

Art Unit: 1805

Examiner: N: Degen

Attorney Docket No.: DYX-006.2P US

STATEMENT UNDER 37 C.F.R. § 1.824(a) and (b)

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

Applicant submits herewith a substitute Sequence Listing under 37 C.F.R. § 1.825(a) and a substitute computer readable form under 37 C.F.R. § 1.825(b), complying with the provisions of 37 C.F.R. § 1.824.

The original Sequence Listing and computer readable form submitted in the above-identified application were determined to be incomplete, in that the Sequence Listing did not include the four-amino-acid sequence mentioned on page 22 at line 27 of the specification. The replacement Sequence Listing and computer readable form are identical to those previously submitted, except for the addition of this one overlooked amino acid sequence (SEQ ID NO. 70) and updating of the identification data at the beginning of the Sequence Listing. No new matter is added.

The undersigned attorney hereby states that the copy of the Sequence Listing in computer readable form is identical to the printed copy of the Sequence Listing submitted herewith. The undersigned further states that the Sequence Listing and the computer readable form submitted herewith are supported in the application as filed and contain the same sequence information set forth in the original specification. The Sequence Listing and computer readable form contain only subject matter

originally disclosed in the application as filed, and therefore no new matter is introduced by the materials submitted herewith.

The Sequence Listing is being submitted concurrently with an Amendment including a direction to amend the specification to incorporate it into the specification in place of the previous Sequence Listing. Entry of the Sequence Listing and computer readable form are requested.

Respectfully submitted,

December 17, 1997
